Dear Mr. Isham:

You have been many times
in my thought, since the hour
you spent with the great pictures in
the Studio. All that is now over.
We are sailing May 4th, on the American
Imperator, for England - then the continent
and eventually Syria. The pictures will
go almost intact - to Bebau. Five are
to remain in the Metropolitan Museum
here.

I am sending you a sketch which
Silva me sent me in a letter - and
was therefore framed by his own hand. This
is my recognition of your beautiful under-
standing of his work. May all blessing
abound in your heart and life.

Yours faith fully
Barbara Jones.
